

# Serene Sani

Five miles of white sands and crystal-clear waters, Greek hospitality that's as warm as the Aegean, breathtaking views of rolling mountain landscapes, first-class service and delicious local and international cuisine.

A family-owned, privately developed ecological reserve with evergreen pine forests, olive groves and a bird sanctuary, **Sani Resort** is blessed with 1,000 acres of natural beauty, four luxury hotels, a state-of-the-art yacht marina bustling with award-winning restaurants, lively bars and trendy shops and the ultimate leisure, sports and children's facilities.

Development has taken place with total respect for the local wildlife and countryside and while you won't miss any of the modern comforts during your stay, you can still enjoy the surrounding nature ideal for bird watching, hiking, jogging or cycling. You will find everything you and your family could hope for, including three Spas and two Ofsted-standard crèche and mini clubs that accept children as young as four months old.

Travelling with children can be a daunting experience but at Sani a whole range of baby paraphernalia can be arranged for you including baby monitors, bottle warmers, sterilizers and even pushchairs for hire. Little ones will love the safe, calm and shallow waters as well as the beach toys available at two of the resort's beaches while the "Babewatch" ladies are at hand to look after young ones on the beach while parents have a swim together.

Mealtimes are just as fun with Sani's unique Dine Around programme where half board guests can sample delicacies at no less than 11 out of the resort's 15 restaurants. Most of them offer special toddler and kids menus including pureed and well-being options which your children will love.

Stay at the all-suite Porto Sani Village located near the Sani Marina where you will find two bedroom family suites for that "home away from home" feeling. Or choose Sani Asterias Suites, known as the 'boutique hotel' within the resort, with a breathtaking beachfront location and exquisite service. New for this summer are the five extra spacious family suites, featuring two bedrooms, two bathrooms and a separate living and dining area.
